Programming Languages: Proficient in C | C++ | JavaScript | Java | SQL | no SQL | Python

Databases & Backend: Hands-on experience with MongoDB,MSSQL,My SQL, Firebase & Node.js/Express.js

Frameworks & Libraries: Skilled in Express.js ,ejs & learning REACT & Tailwind CSS for modern web development

Operating Systems: Experienced in Windows and Linux environments

Developer Tools: Git Bash, Github, Docker, Aws Deployment, Visual Studio Code, Codeblocks, Neatbeans, Google Colab

PROJECTS

Blogify(MERN Stack) (Full-Featured Blogging Platform)

- Developed a complete blogging application using Node.js, Express, MongoDB, and JWT for secure backend operations.
- Implemented token-based authentication and encrypted passwords to ensure data privacy and user security.
- Designed and integrated role-based access control (RBAC) to manage permissions for admins and regular users.
- Built full CRUD functionalities (Create, Read, Update, Delete) for blog posts with seamless database integration.

Notes_Daily(MERN)

- Special feature Google Authentication (OAuth) for secure sign-in
- Search functionality with minimal, organized backend architecture
- Full CRUD operations: Add, Edit, Update, Delete notes with time table
- Future enhancement: efficient sorting and filtering (Today's notes / Last month / Important vs less important)

URL_Shortner(Backend)

- Built a backend-focused URL Shortener using Node.js and UUIDs for unique link generation
- Demonstrated strong backend development and system design skills for learning skills
- Implemented token-based authentication for secure login and logout

REST API & Javascript projects

- Developed a backend-focused REST API with full CRUD operations, tested using Postman
- Built a Weather App integrating external APIs |file upload feature demonstrating full-stack skills.

ACHIEVEMENTS

- AUST SPORTS CLUB(AUSTSC) [2022-2025] - General Member
- AUST CSE FOOTBALL TOURNAMENT - FALL 23 [2024] - Champion

INTRESTS

Photography & Singing, Cricket, Guiter
